# Natural Park of Porto Selvaggio

## Trekking Tour

*Porto Selvaggio Regional Natural Park is one of the most exciting and "oldest" parks in Salento.*

The regional natural park of Porto Selvaggio is a must-see for nature lovers and in general for those visiting Salento.

A place of great naturalistic value that hosts and preserves many animal and plant species, important prehistoric caves, watchtowers, a water source and many other wonders that we will discover along the path.

With his high and jagged rocks, the park faces west and offers unique sunsets. The panoramic viewpoint dedicated to Renata Fonte is the ideal place to fully enjoy the last rays of the sun and to celebrate the one who gave her life in the name of the creation of this wonderful park.
